THERMAL MESH CN
1916673

Thermal Mesh CN is a warm and highly ventilating baselayer for a variety of training sessions as well as everyday use. The mesh blend provides warmth and a soft feel, while its open structure gives excellent ventilation and body-temperature management. A touch of elastane adds stretch and freedom of movement. The fit is slightly more relaxed than traditional tight baselayers – wear it as a baselayer in colder weather or on its own in milder conditions.

- Soft fabric
- Mesh structure
- Crew neck
- Regular fit

- **62% Recycled polyester**
- **33% Lyocell**
- **3% Elastane**
