### DESCRIPTION:

Cooking outdoors is no longer just a trend; it has become a common practice for anyone who spends time in the woods and nature. Doris pan is a part of Sagaform's enamel series and is suitable for preparing everything from paella, stir-fry, vegetables, or soup – anything you want to cook over an open flame. The pan is made of enameled carbon steel with a highly durable surface. Avoid using sharp objects that could damage the enamel. Carbon steel heats up quickly and is also somewhat lighter in weight, while the enamel coating provides protection against rust. Doris pan is available in two sizes and is a favorite among those leading an active lifestyle! The pan works well in the oven, on induction stovetops, on the grill, and over an open flame up to 225 degrees Celsius.

Withstands machine washing in upper basket on low temperature.
