AVAILABLE COLORS

BLACK

DESCRIPTION:

The TXLite Hybrid Midlayer is made from a comfortable, stretchy material that's also very light and easy to pack. Wear it as a stand-alone jacket or under a shell jacket on colder days. It has extended, articulated arms and thumb holes to prevent the arms from getting caught in your jacket. The material is quick-drying, and it has quilted insulation at the front and the back to keep you extra-warm. The two front pockets have zippers so you won't lose any of your belongings.

- Two zippered front pockets
- Articulated sleeves
- Extended sleeves with thumb loops
- Quilted padding
- Folded chinguard
- Elastic hem
