DESCRIPTION:

Handmade lanterns in organic shapes with fantastic curves in glass. They look like chewy caramel or twisted candy cane, the new family members of our popular Calore series. Each lantern is unique. Use them in various ways with for example tealights, flowers or why not fill them with Friday popcorn? Available in size XS and M. Colours and stripes vary from product to product, and how we love that! Calore curve belongs to the Calore family but is also related to ByOn's plate Curve.

Material: Glass

Packing: Giftbox

Do not machine wash.
