#### DESCRIPTION:

Saga high tumbler, belongs to Sagaform's classic glass series. The Saga series includes wine glasses, champagne glasses, champagne coupe, drinking glasses and a glass jug all of which take their rightful place in the kitchen cabinet. With its characteristic stripes, persistent to all parts of the series in one way or another, it stands out but also blends in. Saga is perfect for the morning juice or the pancake milk but also has the power to lift and make a festive table setting into something extra. You can to advantage mix Saga with what you already have at home but it's also a perfect gift and a desirable series to collect. Simply a Swedish original.
