Description:

One plate, many areas of use. Tapas, tacos, finger food – there is room for it all on Ditte serving plate. Instead of several small bowls this serving plate will be practical and stylish. Also, it creates more room on the table and there will be less washing up to do afterwards. The plates are stackable. Ditte serving plate is made of stoneware in beige/grey tones with a nice black splash-pattern. Ditte is handmade. The colour and surface may therefore vary from one product to another. Every product is unique in its look.
